LOCK WITH NOKĒ & **UNLOCK A WORLD OF SMART SECURITY**

NOKĒ STANDARD PADLOCK

This keyless, smartlock works remotely via a mobile app. This gives you control over who, when and where your locks are being used, from anywhere in the world. With an 8mm boron-hardened shackle, this tough lock is used for applications such as gates, lockers, storage boxes, trade show cargo, cash boxes, and beyond.

SECURITY, COMPLIANCE, AND PRIVACY STANDARDS

Nokē customers operate in nearly every industry and region across the world, including highly regulated industries such as utilities and government applications. The privacy and safety of our customers is our top priority, so we ensure our products and services contain the highest level of security.

BLUETOOTH 4.0

Bluetooth
Smart encryption
technology

CLOUD-BASED KEY TRANSFER

Keys are stored on secure servers
to prevent compromising sensitive
data

CRYPTOGRAPHIC KEY PROTOCOL

Keys are assigned based on
permission levels and used to encrypt
all communication to and from the lock

THIRD-PARTY TESTING

The Nokē system
has passed rigorous
third-party testing

END TO END ENCRYPTION

Double-secured
transmissions using end-to-end
128-bit AES encryption

CUSTOM SECURITY LAYER

Additional custom-built
encryption protocol prevents
Bluetooth replay attacks

COMPATIBILITY

All Nokē hardware offers a wide range of smart device compatibility

iOS

iPhone 4S or
newer models

Android

Devices with BT 4.0, Android
4.4 or newer models

WIRELESS CAPABILITIES

Nokē security services
with remote control

AUDIT TRAILS

Cloud storage
for all audit trail data
