LOCK WITH NOKĒ & **UNLOCK A WORLD OF SMART SECURITY**

NOKĒ HEAVY-DUTY PADLOCK

This keyless, heavyweight smartlock works remotely via a mobile app. This gives you control over who, when and where your locks are being used, from anywhere in the world. With a 10mm boron-hardened shackle, the HD is tamper-resistant, built to withstand harsh environmental conditions, and is available with a shrouded shackle.

SECURITY, COMPLIANCE, AND PRIVACY STANDARDS

Nokē customers operate in nearly every industry and region across the world, including highly regulated industries such as utilities and government applications. The privacy and safety of our customers is our top priority, so we ensure our products and services contain the highest level of security.

BLUETOOTH 4.0

Bluetooth Smart encryption technology

CLOUD-BASED KEY TRANSFER

Keys are stored on secure servers to prevent compromising sensitive data

CRYPTOGRAPHIC KEY PROTOCOL

Keys are assigned based on permission levels and used to encrypt all communication to and from the lock

THIRD-PARTY TESTING

The Nokē system has passed rigorous third-party testing

END TO END ENCRYPTION

Double-secured transmissions using end-to-end 128-bit AES encryption

CUSTOM SECURITY LAYER

Additional custom-built encryption protocol prevents Bluetooth replay attacks

COMPATIBILITY

All Nokē hardware offers a wide range of smart device compatibility

iOS

iPhone 4S or newer models

Android

Devices with BT 4.0, Android 4.4 or newer models

WIRELESS CAPABILITIES

Nokē security services with remote control

AUDIT TRAILS

Cloud storage for all audit trail data

QUICK-CLICK ACCESS

Manage quick-clicks via the Nokē mobile app or web portal

BATTERY JUMP-START

In the rare event that you lose lock power, touch an external 9V battery to the base of lock to give your lock a jump-start

BATTERY TYPE

1/2 AA or CR2

LOW BATTERY NOTIFICATIONS

Stay up-to-date with battery notifications

LONG-LASTING BATTERY

2+ years of battery life

QUICK-CLICK ACCESS

Create a manual access code for any person who may not have a smart device
